Digits for Dollars: Four times each hour between 11am and 7pm (last drawing at 7pm) each day, an associate will randomly select a 2-digit number by spinning a 10-wedge micro-wheel with wedges numbered "0" to "9". Once verified, the two-digit numbers spun will be deemed the official "Digits for Dollars" number for that period and will be announced on the gaming floor. A two-digit number can only be spun two times each hour. In the event of a duplicate, a Hamburg Gaming Associate will spin the wheel again until a new two-digit number is revealed.

The last two digits of each Member's official Hamburg Gaming Lucky North Club Account Number (in exact order) shall serve as their game card throughout this promotion. Digits range from 0 to 9; Two-digit numbers range from 00 to 99.

Bonus Lucky Number: All members who earn 50 points between 8am-6:45pm on promotional days can pick up a pull-tab at the Players Club, with a random two digit number. Number will be valid only on the day earned.
